

KAM

November 23 2015

The Kenya's Association of Manufacturers (KAM) is one of the country's leading business associations. It represents more than 850 sector members who together contribute to 11.3% of the country's gross domestic product. It promotes trade and investment, upholds standards, and by providing a link for co-operation and dialogue with the government, encourages the development of policies that facilitate a competitive business environment and reduce the cost of doing business.
